

InfinitiPower

12V 110Ah Lithium Battery IP-12110-SP

Description

The light weight IP-12110-SP is constructed using the latest generation prismatic lithium iron phosphate cells and an inbuilt Battery Management System (BMS).

This battery is perfect for electric outboards and trolling motors, as well as RVs, caravans, 4WDs & camping. Provides 70A of continuous discharge; can be placed into parallel to provide for higher power requirements.

The positive and negative M8 terminals include a positive fused and unfused connection with an external MEGA 100A fuse.

A strong aluminium enclosure delivers a safe, lightweight and powerful unit which is the perfect building block for next generation battery systems.

Features

- Internal 100A BMS
- Strong aluminium enclosure
- External 100A fuse
- POS Fused & Unfused M8 terminals
- DC POS & NEG M6 terminals
- Lightweight 12kg

Optional Extras

- Solar panels
- AC Charger
- AC Inverters
- Cable connection kits

SPECIFICATIONS

Model	IP-12110-SP-DCS
Capacity	110Ah
Nominal Voltage	12.8V
Type	LiFePO4
DC-DC Charge	20A max
Charge Voltage	14.6V max
Charge Current	100A max continuous
Discharge Current	100A max continuous 200A Peak
Operating Temp	0-45°C
Weight	12kg
Life at 80% DoD	2,000 cycles
Life at 50% DoD	5,000 cycles
Size (LxDxH)	257x177x190mm
Warranty	3 years

Australian designed,
engineered and
assembled batteries
